# A word or two before we begin

This book will take you one hour to read, and you can read it for free. But a free book, that's ironic, no? Yes. So here's the twist: I hope that once you have read this book you will find it so valuable you will WANT to pay for it to recognize its value. Should you feel that way, please do two things:

First, share it with others so they can benefit too.

Second, go to <http://reliablesoftwares.com/inspirequotes/> where you can pay what you believe this book is worth to you and your business...it could be one dollar, could be \$5000—you decide.

With that, enjoy.

What You Already Have is Priceless

I may not have gone where I intended to go, but I think I have ended up where I needed to be.

You must choose, but choose wisely, for as the true Grail will bring you life, the false Grail will take it from you.

**Indiana Jones**

Search your own heart with all diligence for out of it flow the issues of life

We all are special we just need to find our specialty

Faith is the cure that heals all troubles. Without faith there is no hope and no love. Faith comes before hope, and before love.

We travel, initially, to lose ourselves; and we travel, next, to find ourselves.

I was motivated to be different in part because I was different.

You never know what motivates you.

When you fail you learn from the mistakes you made and it motivates you to work even harder.

Crave for a thing, you will get it. Renounce the craving, the object will follow you by itself.

Be miserable. Or motivate yourself. Whatever has to be done, it's always your choice.

A creative man is motivated by the desire to achieve, not by the desire to beat others.

Only those who risk going too far can possibly find out how far they can go.

If things seem under control, you are just not going fast enough.

Motivation is the art of getting people to do what you want them to do because they want to do it.

Because a thing seems difficult for you, do not think it impossible for anyone to accomplish.

If you think you are too small to be effective, you have never been in bed with a mosquito.

**Betty Reese**

We all are special we just need to find our specialty.

Best Motivation is self motivation.

Believe your dreams. Doubt your fears.

Nothing is worth more than this day.

Focus on what you want and not on what you don't want

Incurable means cure from within.

Serve to those who serve inner-peace

It doesn't have to be beautiful, it doesn't have to be perfect, it just has to be done.

People often say that motivation doesn't last. Well, neither does bathing that's why we recommend it daily.

The difference between can and cannot are only three letters. Three letters that determine your life's direction.

Goals are not only absolutely necessary to motivate us. They are essential to really keep us alive.

The best way to make your dreams come true is to wake up.

The real measure of your wealth is how much you'd be worth if you lost all your money

There's only one corner of the universe you can be certain of improving, and that's yourself.

The only way to get things done is to do them.

One day is code for none day.

# Opportunity

When 1 door of happiness closes, another opens; but often we look so long at the closed door that we do not see the 1 which has been opened.

If opportunity doesn't knock, build a door.

**Milton Berle**

Good follow-through doesn't depend on the right intentions. It depends on the right incentives.

Opportunity does not knock, it presents itself when you beat down the door.

You can't expect to hit the jackpot if you don't put a few nickels in the machine.

Opportunity does not knock, it presents itself when you beat down the door.

**Kyle Chandler**

No matter how many goals you have achieved, you must set your sights on a higher one.

One way to keep momentum going is to have constantly greater goals.

A wise man will make more opportunities than he finds.

The best way to have a good idea is to have a lot of ideas.

It's easy to come up with new ideas; the hard part is letting go of what worked for you two years ago, but will soon be out of date.

Every tough time and every pressured project is another opportunity to earn the trust of someone you care about.

When your passions is dying, talk about it to everyone and let it get ignited

Those who believe the route cannot vary don't get very far. Those who believe the destination cannot vary change the world.

Sometimes it needs to end so we can stop worrying about if it will succeed. Opportunity often follows failure.

Opportunity is missed by most people because it is dressed in overalls and looks like work.

**Thomas Edison**

Limitations live only in our minds. But if we use our imaginations, our possibilities become limitless.

Never look at the doors closing behind you or you'll miss the ones opening ahead.

In the middle of every difficulty lies opportunity.

Find a need and fill it.

The more things you do, the more you can do.

Opportunity is a haughty goddess who wastes no time with those who are unprepared.

Entrepreneurship starts with failure and ends at opportunities.

We are all faced with a series of great opportunities brilliantly disguised as impossible situations.

**Charles Swindoll**

Possibility is not about the future. It's about our present view of the future.

What they call risk" I call opportunity; but what they call "low risk" opportunity I call sucker problem.

# Success

Being aggressive doesn't guarantee success, but failing to be aggressive nearly always guarantees failure.

The first step toward success is taken when you refuse to be a captive of the environment in which you first find yourself.

In order to succeed, we must first believe that we can.

Set your goals high, and don't stop till you get there.

You can never quit. Winners never quit, and quitters never win.

Don't see what you can lose; see what you could win.

Even if you fall on your face, you're still moving forward.

Perseverance is failing 19 times and succeeding the 20th.

**Julie Andrews**

What you do today can improve all your tomorrows.

The will to succeed is important, but what's more important is the will to prepare.

The key is to keep company only with people who uplift you, whose presence calls forth your best.

The harder the conflict, the more glorious the triumph.

Setting goals is the first step in turning the invisible into the visible.

If you want to succeed you should strike out on new paths, rather than travel the worn paths of accepted success.

If you can dream it, you can do it.

**Walt Disney**

By failing to prepare, you are preparing to fail.

**Benjamin Franklin**

Sooner or later, those who win are those who think they can.

Only those who dare to fail greatly can ever achieve greatly.

Test fast, fail fast, adjust fast.

Success is on the far side of failure.

The essential part of creativity is not being afraid to fail.

Don't Confuse the Urgent with the Important.

The goal is not to be perfect by the end. The goal is to be better today.

Knowing when to quit and having the courage to quit is a necessary part of following your true path.

Success always takes help. Failure we can do alone.

A big part of doing your work is defending your time and your attention so you can do your work.

I play to enjoy the game winning is just a by product.

Nothing like a deadline to keep things moving. And when things are moving fast, we can't help but focus on them.

When you want to do something, focus. When you don't want to do something, distract.

Focusing on resisting the temptation only makes it harder to resist.

Sometimes the best way to combat distracting interruptions is to create a few productive ones yourself.

Talent is not inborn, it's created by practice.

Success always takes help. Failure we can do alone.

Nobody succeeds beyond his or her wildest expectations unless he or she begins with some wild expectations.

Compete against others and no one will want to help you. Compete against yourself and everyone will want to help you.

Give a man a fire and he's warm for the day, but set fire to him and he's warm for the rest of his life.

**Terry Pratchett**

If you can't excell with talent, triumph with effort.

Mistakes are part of the dues one pays for a full life.

The greater danger for most of us lies not in setting our aim too high & falling short; but in setting our aim too low, & achieving our mark.

Like is rational, love is emotional. Customers will like you if you make good products. They will love you if you stand for something.

The more you talk about what you believe, the more everyone will know what you believe.

To be successful we have to take financial risks. To feel successful we have to take emotional risks.

Nothing can add more power to your life than concentrating all your energies on a limited set of targets.

**Nido Qubein**

Success often obstructs change. When we have nothing we're willing to risk everything. When we have something we're afraid to risk anything.

Life's battles don't always go to stronger or faster man. but, sooner or later, the man who wins is the man who thinks he can.

**Vinci**

Work hard to seem infallible & others will work to find your flaws. Admit your shortcomings & others will work to help you be infallible.

Not giving will never feel good.

People don't buy what you do, but why you do it.

**Simon Sinek**

What is the hardest product or service to sell? The one you don't believe in.

Success isn't a result of spontaneous combustion. You must set yourself on fire.

Make every detail perfect and limit the number of details to perfect.

Setting goals is the first step in turning the invisible into the visible.

Great spirits have often encountered violent opposition from weak minds.

If you are not willing to risk the unusual, you will have to settle for the ordinary.

If you want to reach a goal, you must see the reaching in your own mind before you actually arrive at your goal.

If you don't see yourself as a winner, then you cannot perform as a winner.

People don't invest in what is; they invest in what may be.

A goal is a dream with a deadline.

Success is focusing the full power of all you are on what you have a burning desire to achieve.

You have to believe in yourself when no one else does, that makes you a winner right there.

Though it's important that people know you, it is more important if they think you are worth knowing.

There's always a way if you're committed.

Money is plentiful for those who understand the simple laws which govern its acquisition.

The surest way not to fail is to determine to succeed.

Success is achieved and maintained by those who try and keep trying.

Don't wait. The time will never be just right.

**Napoleon Hill**

The road to success is always under construction.

You were born to win, but to be a winner, you must plan to win, prepare to win, and expect to win.

Success is liking yourself, liking what you do, and liking how you do it.

Spectacular achievement is always preceded by unspectacular preparation.

Winning starts with beginning.

Wanting something is not enough. You must hunger for it. Your motivation must be compelling in order to overcome any obstacles that come your way.

Success is the best revenge of all

A man must be big enough to admit his mistakes, smart enough to profit from them, and strong enough to correct them.

The most Outrageous goals are the easiest to achieve ... simply because there's so little competition.

A problem well stated is a problem half solved.

**Charles F. Kettering**

You don't get rich working 9-to-5.

The most basic rule of negotiation: he who cares less, wins.

100% Guarantee. If you want to think new thoughts, do new things.

Try to SEE it. Once you visualize your goal, ideas for achieving it appear everywhere.

When you build bridges you can keep crossing them.

**Rick Pitino**

Success doesn't come from doing everything right the 1st time. It comes from doing dumb things, learning, then doing better.

Creativity takes the drive to try, the courage to fail, the humility to learn, the persistence to try again.

No matter how your heart is grieving, if you keep on believing, the dream that you wish will come true.

**Cinderella**

Its entirely your responsibility to make your dreams come true.

**Jason Fried, David Heinemeier Hansson**

That some achieve great success, is proof to all that others can achieve it as well.

**Abraham Lincoln**

Don't worry too much about getting things done. Make things happen.

Getting things done is not the same as making things happen

Good judgement comes from experience, and experience comes from bad judgement.

Adversity causes some men to break; others to break records.

**William Ward**

Stop planning and start executing

Success in life is based on the ability to change faster than your competition, customers, and business.

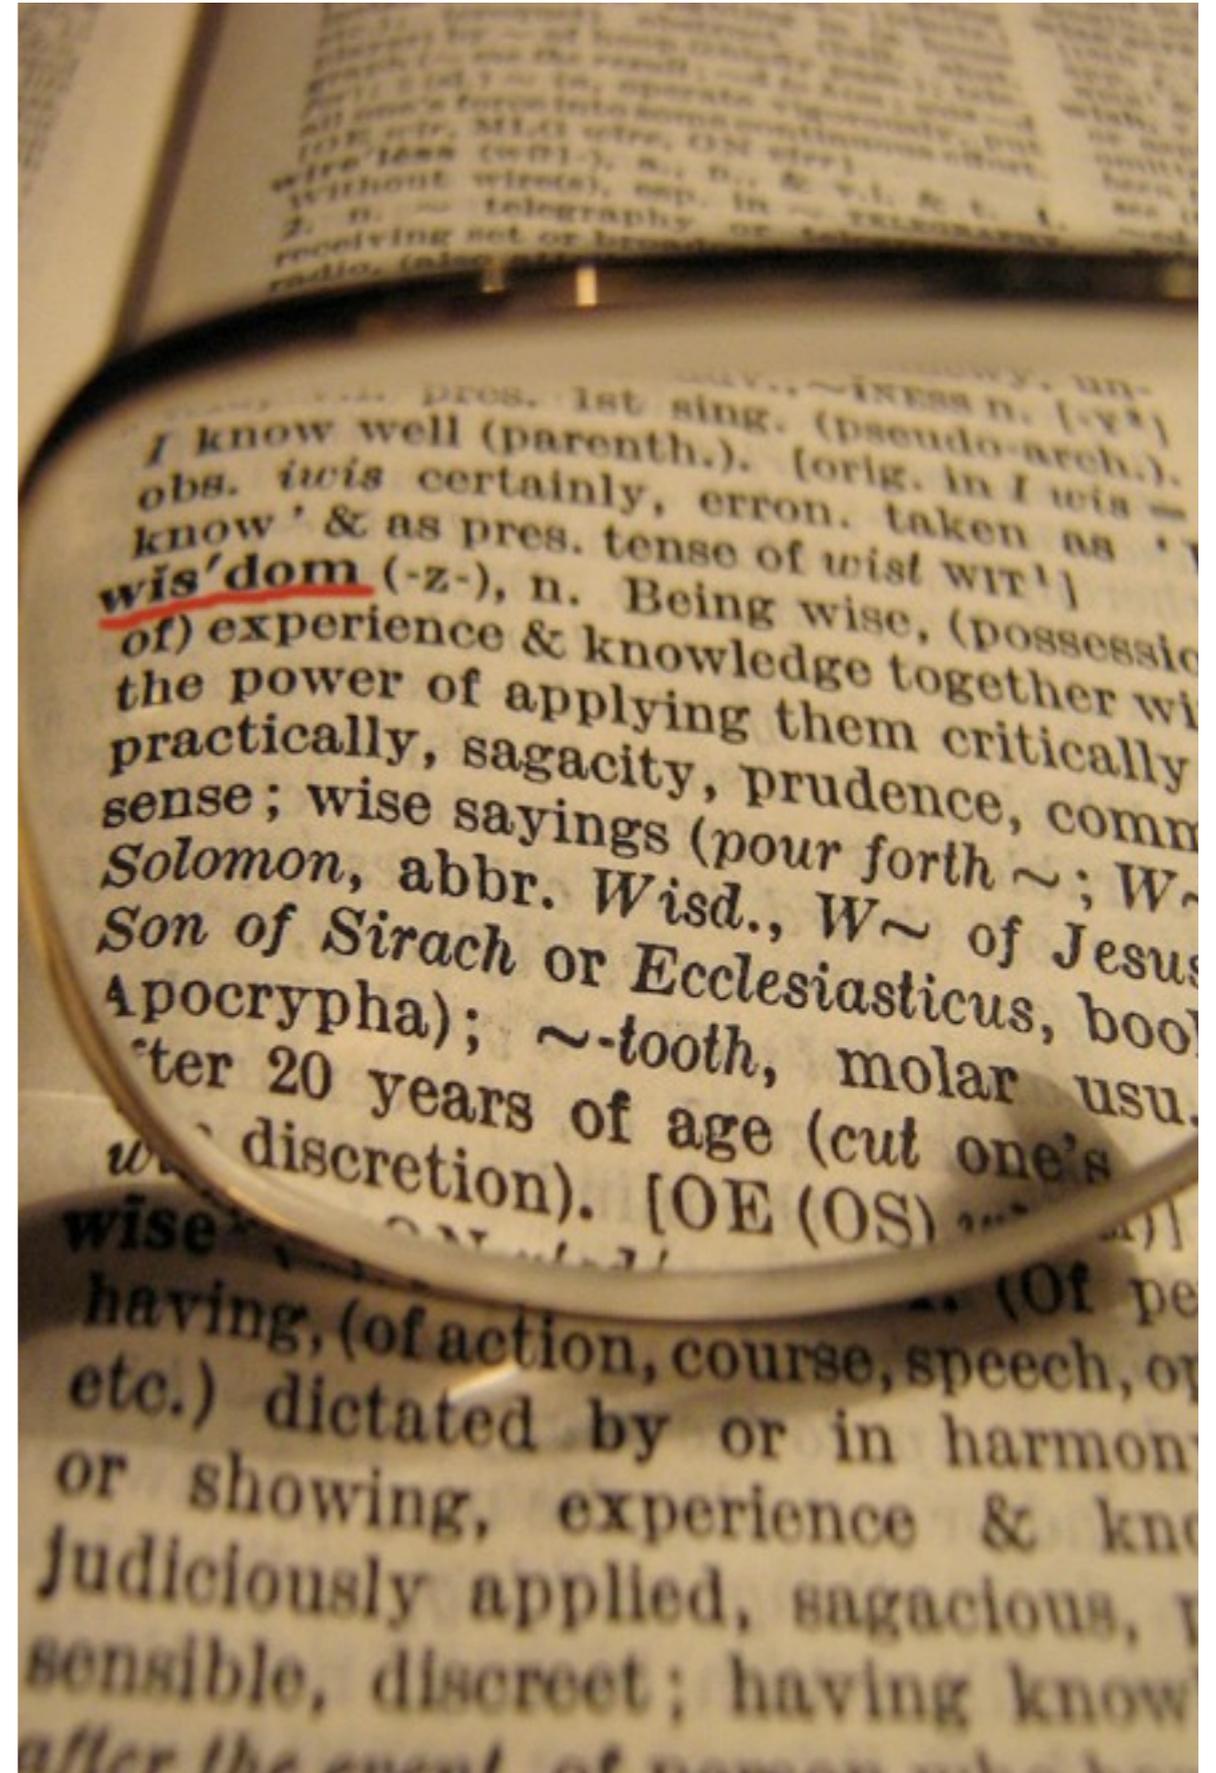

**Mark Sanborn**

Our only security is our ability to change.

The thing about life is that in its biggest moments, we never seem to have a script, let alone a sound track.

When we say "I wish" we see power as external. When we say "I will" we see it as internal.

# Wisdom

Quality of the product doesn't matter if the implementation is poor.

The difference between genius and stupidity is; genius has its limits.

**Albert Einstein**

If you want your children to be intelligent, read them fairy tales. If you want them to be more intelligent, read them more fairy tales.

**Albert Einstein**

Sometimes the questions are complicated and the answers are simple.

Logic will get you from A to Z; imagination will get you everywhere.

**Albert Einstein**

It is never too late to be what you might have been.

We don't see things as they are, we see them as we are.

It is our choices, that show us what we truly are, far more than our abilities.

I fear not the man who has practiced 10,000 kicks once, but I fear the man who has practiced one kick 10,000 times.

**Bruce Lee**

When everyone has access to the same tools then having a tool isn't much of an advantage.

It is better to be hated for who you are than to be loved for what you are not.

Take good care of your reputation. It will live longer than you do.

The feelings are all that matter, and changing feelings takes humanity and connection.

Better to invest the time and money on special people than raw materials instead.

If you can influence the outcome, do the work. If you can't influence the outcome, ignore the possibility. It's merely a distraction.

Wealth Without Work is not only a Sin but a Punishment!

The ultimate aim of the ego is not to see something, but to be something.

Life is what happens to you while you're busy making other plans.

So many books, so little time.

Small deeds done are better than great deeds planned.

Strive for progress, not perfection.

Value is perception not a calculation. It is something a customer feels not something a company proves.

I don't believe you have to be better than everybody else. I believe you have to be better than you ever thought you could be.

Wherever you are be all there.

**Jim Elliot**

The most effective way to do it, is to do it.

Being stressed is not a result of doing work and it is not a sign of doing work. It comes from thinking about work while we're not doing it.

Our vision is only actionable if we share it. Without sharing, it's just a figment of our imagination.

You procrastinate because you want immediate gratification. But it's a false notion.

Quality is not an act, it is a habit.

**Aristotle**

Problems are not stop signs, they are guidelines.

One person with a belief is equal to a force of ninety-nine who have only interests.

Always do your best. What you plant now, you will harvest later.

**Og Mandino**

Be gentle to all and stern with yourself.

Habit is a cable; we weave a thread of it each day, and at last we cannot break it.

The essence of all beautiful art, all great art, is gratitude.

Begin to be now what you will be hereafter.

If a man does not know to what port he is steering, no wind is favorable to him.

The indispensable first step to getting the things you want out of life is this: decide what you want.

Remarkable work is always not on the list, because if it was, it would be commonplace, not remarkable.

When people are financially invested, they want a return. When people are emotionally invested, they want to contribute.

There are no mistakes.

Tongue weighs practically nothing, but only few people can hold it.

Choose your friends, coworkers, and bosses wisely.

Do what feels right to you, not to others.

We don't actually multitask. We switch-task. And it's inefficient, unproductive, and sometimes even dangerous. Resist the temptation.

More you multitask, the worse you are at it. Nothing was lost by not multitasking.

Public Transport is a Huge Time Saver.

When you say no, mean it, and you won't needlessly lose your time.

We can't solve a problem by using the same thinking that created it.

**Albert Einstein**

There are no big or small tasks. All are equally important.

Give people what they want & they will like you for now. Give people what they need & they will value you forever.

Time is the only element in the world that is irretrievable when it's lost. Lose money and you can make more..but not time

Don't raise your voice, improve your argument!!

When we feel humiliated the best reaction is humility.

Deciding what not to do is as important as deciding what to do.

An ounce of action is worth a ton of theory.

Giving is better than receiving because giving starts the receiving process.

I've always worked very, very hard, and the harder I worked, the luckier I got.

Really smart people never tell you how smart they are.

How good our eyes are often depends on what we're looking at: We see others' faults in high def, our own in low res.

Thinking is like golf. It takes skill, practice and learning from mistakes to do it well.

If your questions are unfocused, your results will always be blurry.

Your time is literally your currency. Spend it well.

Feeling right and being right are very different things. It's a mistake to confuse them.

By practicing the art of listening, you increase your chances of being heard.

No choice is also a choice.

Life's beauty: the kindest act towards you in your life may come from an outsider not interested in reciprocation.

Planning is not about doing. Plans change. Planning is about understanding.

It's amazing how much we benefit from getting what we don't want.

Results are not ends in themselves, but simply links in a chain. Results have consequences.

If someone asks you for a drink of water, don't throw them in the pool.

When you take my time, you take something I had meant to use.

**Marianne Moore**

Before criticizing someone, ask yourself "Will this be useful?" –especially if that someone is you.

A day without passion is...well...just another day.

Legacy is gravity. It's very hard to escape.
